Mobile number: 01790462215

ID: L1A-C-30-0-35

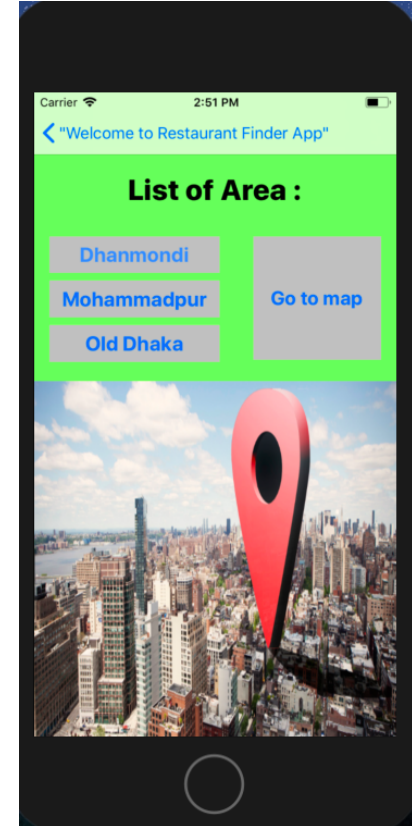

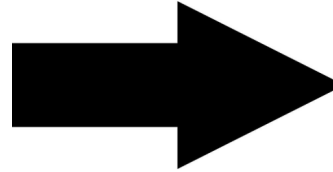

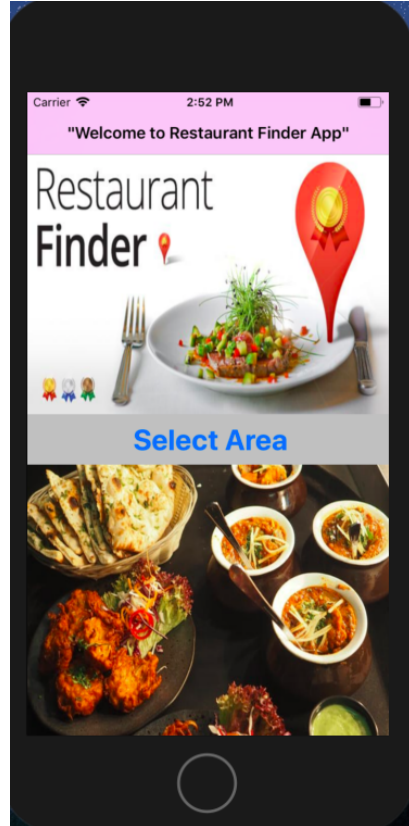

Batch ID: L1A-C-30-0

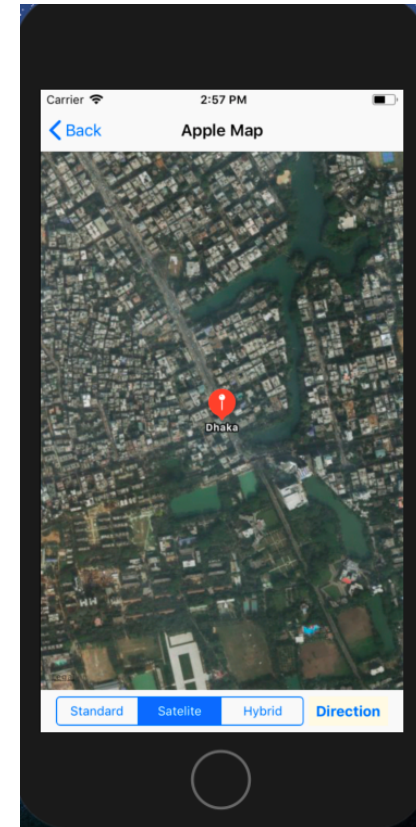

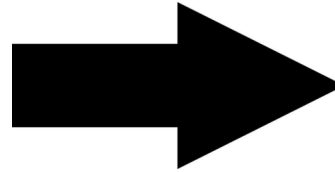

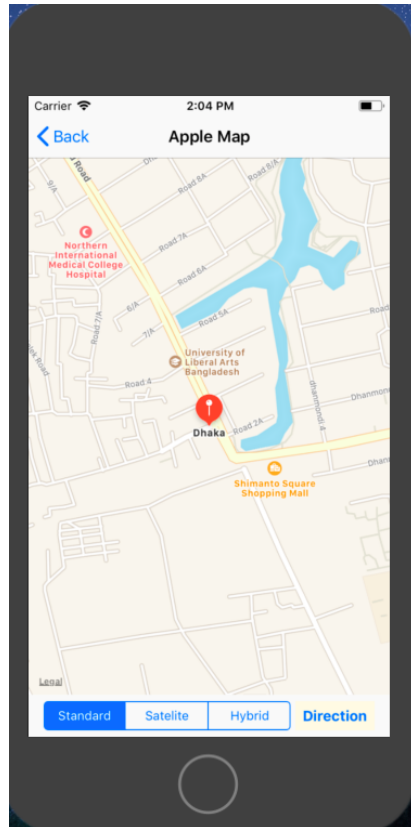

# Introduction

The idea of this project is to find restaurants. Users can find restaurants from their locations. They can get directions on the map to the restaurants location from their locations. If allowed by the restaurants users can also order food through the app from the give menu. Also, users can choose to see location using Standard, Satellite, Hybrid map view.

## Limitations

The app is totally dependent on active internet connection, Since all the information collected through the app is sent to the users and the restaurant owners if any order is placed.

## Future Plan

Currently the app only covers a limited area but in future more areas will be added.

**Thank You!**
